1| General Guidelines

1.1 | Applicability

- 1.1.1 | This form is to be completed for projects (project activities/PoAs/VPAs) seeking deviation or is/are at a risk of deviating from any [applicable requirements](#), GS4GG-specific requirements listed in the applicable [Methodologies](#) or any other deviations occurring in any of the various aspects of the project.
- 1.1.2 | Refer to the latest version of [Deviation Request Requirements and Procedures](#) for detailed information on the procedures and requirements.
- 1.1.3 | This form can be used in the following instances i.e.,
 - a. Deviation from GS4GG requirements and/or applicable methodologies prior to submission for certification with GS4GG.
 - b. Temporary changes to a certified project - which include changes from the registered monitoring plan, the applied methodologies or other standard documents - that are expected **not** to occur beyond a given monitoring period.
- 1.1.4 | For any permanent changes to a design certified project, the requirements set in [Design Change Approval Requirements and Procedures](#) shall be followed.

2| Submission of deviation form

- 2.1.1 | This form shall be submitted in Microsoft Word (.doc) format to Gold Standard at deviations@goldstandard.org
- 2.1.2 | Forms with incomplete/inaccurate information shall not be considered for review and shall be returned to the applicant.

3| Implementation of deviation decision

- 3.1.1 | The decision prescribed in this form shall be considered by the entity applying for deviation for further course of action.

4| Decision summary

To be completed by Gold Standard

4.1 | General information

DEVIATION REFERENCE NUMBER	DEVREQ-390
Date of decision	07/04/2026
Decision	☐ Approved [No precondition to apply the deviation decision] ☒ Conditionally approved [Decision is subject to compliance with the precondition defined below] ☐ Not approved [reason for rejection is provided in decision summary]

4.2 | Decision

4.2.1 | Decision Summary

The deviation request for delaying the VVB verification visit is conditionally approved. The CME could proceed with verification but cannot claim credits beyond 2 years from the date of the site visit.

4.2.2 | Directions for the project developer/CME, if applicable

The CME shall note that the decision is based on the information provided in the deviation request form and only against the applicable standard requirement quoted in the form below by the CME.

The CME shall comply with all other applicable standard requirements unless specifically mentioned in the deviation decision. The CME shall document the deviation request, its implications, and GS' decision in the appropriate section of the project document.

4.2.3 | Directions for the Validation and Verification Body (VVB), if applicable

The VVB shall not verify the monitoring period falling two years before the site visit date.

The VVB shall, through appropriate means at disposal, evaluate the project's compliance with the above-mentioned conditions and provide VVB opinion in the verification report.

4.2.4 | Directions for the Gold Standard, if applicable

The review team shall check the information reported by the CME and the VVB for appropriateness, accuracy and consistency.

4.3 | Applicability to other activities

Is this decision applicable to other projects under similar circumstances? ¹	☐ Yes ☐ No
Does this decision set a precedent for future projects with similar circumstances? ²	☐ Yes ☐ No
Precedent details (if applicable to other activities)	

¹ If this is marked yes, this means that any other project (PoA/VPA/PA) in similar situation may apply the decision of this deviation to their project as well. The project developer/VVB may quote this deviation decision in the relevant certification documents. This is relevant to only the projects which have already entered the certification cycle with GS4GG.

² If this is marked yes, it means the decision is valid to all the future projects which will enter the certification cycle with the similar situation. This is relevant to all the projects which are not yet design certified with GS4GG or have not submitted their documents for preliminary review yet.

Relevant monitoring period, if applicable	Start date	27/12/2023
	End date	31/12/2025
Summarise the changes	The referenced project (GS11969) has been successfully certified design on the Gold Standard Registry and has planned to proceed verification process. As per para 5.1.29 of principles and requirements of version 1.2, Verification must occur at least once during the five-year Certification cycle with the first Verification completed within two years of project Implementation Date or Design Certification, whichever is later. The design certification date of the project was 28/03/2024 and as per the para 5.1.29, the first verification of the project should have been completed by 27/03/2026. However, due to various circumstances, we were unable to complete the first verification of the project by 27/03/2026. This request seeks formal deviation from Section 5.1.29 of GS4GG Principles and Requirements, Version 1.2, for our project and request an extension for the completion of 1st verification till 30/09/2026.	
Reason for deviation	As per para 5.1.29 of principles and requirements of version 1.2, Verification must occur at least once during the five-year Certification cycle with the first Verification completed within two years of project Implementation Date or Design Certification, whichever is later. The design certification date of the project was 28/03/2024 and as per the para 5.1.29, the first verification of the project should have been completed by 27/03/2026. However, due to circumstances given below, we were unable to complete the first verification of the project by 27/03/2026. Delay in commissioning of the project: Initially, we have planned to start the verification process upon commencement of the total plant capacity of 521.7 MW. The first WTG was commissioned on 27/12/2023. However, due to many technical and logistics reasons, the commissioning of the total project capacity was achieved on 22/04/2025 which further delayed the commencement of verification process of the project. Prolonged internal approval: It is to be noted that there were internal organizational changes which resulted in revising management roles which further caused delay for authoring the approvals to initiate the verification process of the project.	
Proposed resolution	We are hereby requesting the deviation from Section 5.1.29 of GS4GG Principles and Requirements, Version 1.2, for our project and request an extension for the completion of 1st verification till 30st September 2026.	

Is there any potential temporary or permanent impact of deviation on other aspects of the project?
