1| General Guidelines

1.1 | Applicability

- 1.1.1 | This form is to be completed for projects (project activities/PoAs/VPAs) seeking deviation or is/are at a risk of deviating from any [applicable requirements](#), GS4GG-specific requirements listed in the applicable [Methodologies](#) or any other deviations occurring in any of the various aspects of the project.
- 1.1.2 | Refer to the latest version of [Deviation Request Requirements and Procedures](#) for detailed information on the procedures and requirements.
- 1.1.3 | This form can be used in the following instances i.e.,
 - a. Deviation from GS4GG requirements and/or applicable methodologies prior to submission for certification with GS4GG.
 - b. Temporary changes to a certified project - which include changes from the registered monitoring plan, the applied methodologies or other standard documents - that are expected **not** to occur beyond a given monitoring period.
- 1.1.4 | For any permanent changes to a design certified project, the requirements set in [Design Change Approval Requirements and Procedures](#) shall be followed.

2| Submission of deviation form

- 2.1.1 | This form shall be submitted in Microsoft Word (.doc) format to Gold Standard at deviations@goldstandard.org
- 2.1.2 | Forms with incomplete/inaccurate information shall not be considered for review and shall be returned to the applicant.

3| Implementation of deviation decision

- 3.1.1 | The decision prescribed in this form shall be considered by the entity applying for deviation for further course of action.

4| Decision summary

To be completed by Gold Standard

4.1 | General information

DEVIATION REFERENCE NUMBER	DEVRQ-414
Date of decision	08/05/2026
Decision	☒ Approved [No precondition to apply the deviation decision] ☐ Conditionally approved [Decision is subject to compliance with the precondition defined below] ☐ Not approved [reason for rejection is provided in decision summary]

4.2 | Decision

4.2.1 | Decision Summary

The deviation has been approved for the delayed submission of the annual report for the 2024 verification period. The project developer must submit the annual report for year 2024 to the Assurance Platform as soon as possible.

4.2.2 | Directions for the project developer/CME, if applicable

The project developer shall establish and implement a process/procedure to ensure that Annual Reports are submitted annually, no later than the end of the year.

4.2.3 | Directions for the Validation and Verification Body (VVB), if applicable

The verifying VVB shall verify compliance with this requirement, as stipulated in the applicable version of Principles & Requirements.

4.2.4 | Directions for the Gold Standard, if applicable

The review team shall check the information reported by the project developer and the VVB for appropriateness, accuracy and consistency.

4.3 | Applicability to other activities

Is this decision applicable to other projects under similar circumstances? ¹	☐ Yes ☐ No
Does this decision set a precedent for future projects with similar circumstances? ²	☐ Yes ☐ No
Precedent details (if applicable to other activities)	

¹ If this is marked yes, this means that any other project (PoA/VPA/PA) in similar situation may apply the decision of this deviation to their project as well. The project developer/VVB may quote this deviation decision in the relevant certification documents. This is relevant to only the projects which have already entered the certification cycle with GS4GG.

² If this is marked yes, it means the decision is valid to all the future projects which will enter the certification cycle with the similar situation. This is relevant to all the projects which are not yet design certified with GS4GG or have not submitted their documents for preliminary review yet.

6.2 | Description of the deviation

Title	Deviation – Late submission of Annual Reports	
Confirm the nature of changes related to deviation	☒ Temporary (e.g. not expected to occur beyond one monitoring period)	☐ Permanent (e.g. deviation from requirements prior to submission for certification)
	Insert Text here (if required) to support the selection	
Relevant monitoring period, if applicable	Start date	01/01/2024
	End date	31/12/2024
Summarise the changes	This request relates to the late submission and upload of monitoring / annual report for the following monitoring periods: 01/01/2024 to 31/12/2024 Originally, the monitoring data for these periods was compiled and internally completed within the required timelines. However, due to administrative transition, consolidation of historical documentation, and delays in coordination with the VVB and internal teams, the consolidated monitoring reports could not be formally submitted and uploaded to the Gold Standard registry within the originally prescribed deadlines. As part of this update: - The two monitoring / annual reports have now been finalized and uploaded to the Gold Standard registry with a report date of 21/04/2026. - These submissions represent the actual completion date of technical finalization and formal submission of the reports. - Going forward, the project will submit annual reports as separate verification cycles and ensure timely submission in accordance with Gold Standard requirements. No changes are proposed to the project design, baseline, monitoring methodology, emission reduction calculations, or project boundary. The change is procedural in nature only and relates solely to the timing of report submission. The environmental integrity, data quality, and continuous operation of the project remain fully unaffected.	
Reason for deviation	The delay was purely procedural and administrative in nature and was not related to: - The quality of monitoring data - The accuracy or integrity of the reported information - The performance or operation of the project activity The project activity has remained continuously operational and compliant with Gold Standard requirements during the entire period.	

Proposed resolution	The Project Participant proposes the following resolution to address the delayed submission of monitoring / annual reports: The already finalized and uploaded monitoring reports dated 21/01/2026 for the periods:01/01/2024 to 31/12/2024 The Project Participant commits that all future monitoring periods will be verified and submitted as separate annual verification cycles and uploaded to the Gold Standard registry strictly in line with applicable timelines and requirements. The Project Participant respectfully requests Gold Standard to approve this deviation and allow the project to continue the certification and issuance process without prejudice, as the environmental integrity, data accuracy, and continuous operation of the project remain fully intact.				
Is there any potential temporary or permanent impact of deviation on other aspects of the project?	Select the relevant area: ☐ Project design ☐ Local stakeholder consultation ☐ Safeguarding principles ☐ SDG assessment ☐ Regulatory compliance ☐ Additionality ☐ Applicability of methodology ☐ Annual emission reduction volume <i>(if yes, fill the table below)</i> <table border="1"> <thead> <tr> <th>Annual emission reduction/removal before applying deviation</th><th>Annual emission reduction/removal after applying deviation</th></tr> </thead> <tbody> <tr> <td>XYZ tCO_{2e}</td><td>XYZ tCO_{2e}</td></tr> </tbody> </table> ☐ any other matrix, please specify...	Annual emission reduction/removal before applying deviation	Annual emission reduction/removal after applying deviation	XYZ tCO _{2e}	XYZ tCO _{2e}
Annual emission reduction/removal before applying deviation	Annual emission reduction/removal after applying deviation				
XYZ tCO _{2e}	XYZ tCO _{2e}				
Summary of the impact	The project participant confirms that: - The delay does not impact environmental integrity of the project - The delay does not affect the continuity of the project activity - The delay does not affect the correctness, completeness, or transparency of the monitoring data All emission reductions / impacts claimed are based on real, monitored, and verifiable data.
