1| General Guidelines

1.1 | Applicability

1.1.1 | This form is to be completed for projects (project activities/PoAs/VPAs) seeking deviation or is/are at a risk of deviating from any applicable requirements, GS4GG-specific requirements listed in the applicable Methodologies or any other deviations occurring in any of the various aspects of the project.

1.1.2 | Refer to the latest version of Deviation Request Requirements and Procedures for detailed information on the procedures and requirements.

1.1.3 | This form can be used in the following instances i.e.,

a. Deviation from GS4GG requirements and/or applicable methodologies prior to submission for certification with GS4GG.

b. Temporary changes to a certified project - which include changes from the registered monitoring plan, the applied methodologies or other standard documents - that are expected **not** to occur beyond a given monitoring period.

1.1.4 | For any permanent changes to a design certified project, the requirements set in Design Change Approval Requirements and Procedures shall be followed.

2| Submission of deviation form

2.1.1 | This form shall be submitted in Microsoft Word (.doc) format to Gold Standard at help@goldstandard.org

2.1.2 | Forms with incomplete/inaccurate information shall not be considered for review and shall be returned to the applicant.

3| Implementation of deviation decision

3.1.1 | The decision prescribed in this form shall be considered by the entity applying for deviation for further course of action.

4| Decision summary

To be completed by Gold Standard Secretariat

4.1 | General information

DEVIATION REFERENCE NUMBER	DEVRQ-474
Date of decision	12/08/2026
Decision	☐ **Approved** [No precondition to apply the deviation decision] ☐ **Conditionally approved** [Decision is subject to compliance with the precondition defined below] ☒ **Not approved** [reason for rejection is provided in decision summary]

4.2 | Decision

4.2.1 | **Decision Summary**

The deviation request for the survey exemption is not approved as excluding 44.1% of the stove population from the sample frame introduces significant potential for bias.

In case of non-accessibility, the CME shall conduct remote monitoring surveys for the Southwest Shewa zone to ensure the samples size requirement of the monitoring plan. However, the CME shall apply the conservative usage rate, i.e., maximum 75% if the remote survey is conducted for the non-physical surveying area.

4.2.2 | Directions for the project developer/CME, if applicable

The CME shall note that the decision is based on the information provided in the deviation request form and only against the applicable standard requirement quoted in the form below by the CME. The CME shall comply with all other applicable standard requirements until unless specifically mentioned in the deviation decision. The CME shall document the deviation request, its implications, and GS' decision in the appropriate section of the project document.

4.2.3 | Directions for the Validation and Verification Body (VVB), if applicable

The verifying VVB shall, through appropriate means at disposal, evaluate that the project's compliance with the above-mentioned conditions and provide VVB opinion in the verification report.

4.2.4 | Directions for the Gold Standard, if applicable

The review team shall check the information reported by the CME and the VVB for appropriateness, accuracy and consistency.

4.3 | Applicability to other activities

Is this decision applicable to other projects under similar circumstances?[1]	☐ Yes ☒ No
Does this decision set a precedent for future projects with similar circumstances?[2]	☐ Yes ☒ No
Precedent details (if applicable to other activities)	

[1] If this is marked yes, this means that any other project (PoA/VPA/PA) in similar situation may apply the decision of this deviation to their project as well. The project developer/VVB may quote this deviation decision in the relevant certification documents. This is relevant to only the projects which have already entered the certification cycle with GS4GG.

[2] If this is marked yes, it means the decision is valid to all the future projects which will enter the certification cycle with the similar situation. This is relevant to all the projects which are not yet design certified with GS4GG or have not submitted their documents for preliminary review yet.

5| Deviation Request Details

To be completed by the entity requesting deviation - (Project Developer/Coordinating and Managing Entity and/or VVB)

5.1 | Submitted by

☒ Project developer
☒ CME
☐ VVB
☐ Other (specify…)

5.2 | Details of the entity and its representative submitting the form

Item	Information
Name[3] :	Stefano Rota Martir
Email ID[4] :	s.rota@southpole.com
Organisation:[5]:	Carbonsink group srl
Are you an authorized project participant as per the cover letter submitted for this activity?	☒ Yes ☐ No

5.3 | Background information

Type	☐ Project activity	☐ PoA GSXXXX	☒ VPA
GS ID	*GSXXXX* *GSXXXX*	*GS XXXX* *GS XXXX*	*GS10988* *GS10989*
Host country(ies)	Ethiopia		
Project Title	GS5658 VPA 31: Improved Cookstoves for Environmental Conservation in Southern Ethiopia GS5658 VPA 32: Improved Cookstoves for Environmental Conservation in Southern Ethiopia		
Registry link	**https://registry.goldstandard.org/projects/details/2947** **https://registry.goldstandard.org/projects/details/2948**		
Scale	☒ Microscale (GS) ☐ Small scale ☐ Large scale ☐ Other, if applicable please specify below		

[3] Name of the individual representing the entity requesting the deviation
[4] Email ID for further correspondence related to the deviation request
[5] The name of the entity requesting the deviation

Certification Status and corresponding date of latest status	☐ Listed	☐ Certified design[6]	☒ Certified project[7]	☐ Other *If other, specify here*

Applied version of Standard	☒ GS4GG				
	☐ Previous version of Gold Standard	Version no.			
		☐ 1.0	☐ 1.1	☐ 1.2	☐ 2.2

Transition date, if applicable	From previous GS version to GS4GG	*dd/mm/yyyy*
	From another standard to GS4GG	*dd/mm/yyyy*
	Name of another standard	☐ CDM
		☐ Other Name of the Standard – Insert text here

Applicable activity requirement	☐ Renewable Energy Activity Requirements ☒ Community Services Activity Requirements ☐ Land-use and Forests Activity Requirements ☐ Agriculture Activity Requirements ☐ Blue Carbon and Freshwater Wetlands Activity Requirements ☐ Engineered removals Activity Requirements ☐ Other *Insert name here*

5.4 | Project deviation history

Is there any deviation request(s) for the same project activity/PoA/VPA(s) that was submitted to GS previously? If yes, below information.			☐ Yes ☒ No
Reference number	Insert Text here		
Status of the deviation	☐ Approved	☐ Rejected	☐ Under review

Were there any findings (CL, CAR, FAR) raised during any certification step (preliminary review, design and/or performance review etc.) that are relevant to this deviation request?	☐ Yes ☐ No **Summary of the findings** *Summary of the CL, CAR, FAR not more than 200 words. Include reference to document, page number*

[6] Design certification date
[7] Date of first issuance approval by Gold Standard

6| Deviation detail

To be completed by the entity requesting deviation (Project Developer/Coordinating and Managing Entity and/or VVB)

6.1 | Standard document reference

Standard document reference	Title	Simplified Methodology for Efficient Cookstoves
	Version	V1
	Paragraph	Para 4.2 option b

6.2 | Description of the deviation

Title	Inability to conduct household interviews in South West Shewa zone.	
Confirm the nature of changes related to deviation	☒ Temporary (e.g. not expected to occur beyond one monitoring period)	☐ Permanent (e.g. deviation from requirements prior to submission for certification)
Relevant monitoring period, if applicable	Start date	30/01/2025
	End date	31/12/2025
	☐ NA	
Summarise the changes	The survey was conducted across the combined population of the two VPAs (more than 1,000 households) between January and February 2026. Due to the fuel supply crisis affecting Ethiopia during this period, it was not possible to conduct household interviews in South West Shewa zone, which represents 44.1% of the stove population within the sample frame.	
Reason for deviation	Due to the war in Iran and the subsequent closure of the Strait of Hormuz, Ethiopia experienced a severe fuel supply crisis throughout the monitoring period (survey conducted in January-March 2026), resulting in fuel rationing and prioritized access to the limited fuel available nationwide. This context made it impossible for the monitoring team to reach South West Shewa zone, due to insufficient fuel availability for travel to this zone.	
Proposed resolution	We kindly request that Gold Standard approve the exclusion of South West Shewa zone from the survey coverage for this monitoring period, given the extraordinary and unforeseeable circumstances caused by the 2026 Iran war and the resulting closure of the Strait of Hormuz, which triggered a severe fuel supply crisis in Ethiopia. The overall sample size and statistical representativeness achieved across the two VPAs (161 households surveyed as a single combined population, exceeding the minimum required sample of 100). Furthermore, GS should note that no differences were found in the baseline scenario between the Bale Zone and the South West Shewa Zone; consequently, the sample of households interviewed is representative of all beneficiaries of the two VPAs.	
Is there any potential temporary or permanent impact of	Select the relevant area: ☐ Project design	

deviation on other aspects of the project?	☐ Local stakeholder consultation ☐ Safeguarding principles ☐ SDG assessment ☐ Regulatory compliance ☐ Additionality ☒ Applicability of methodology ☐ Annual emission reduction volume *(if yes, fill the table below)* Annual emission reduction/removal before applying deviation: *XYZ* tCO_2e Annual emission reduction/ removal after applying deviation: *XYZ* tCO_2e ☐ any other matrix, please specify… ☒ NA
Summary of the impact	The exclusion of South West Shewa zone from the surveyed sample is not expected to have a material impact on the project, as the achieved sample of 161 households (exceeding the required minimum of 100 for the combined population of the two VPAs).

6.3 | VVB information

Is a VVB opinion on the deviation request required? *VVB opinion shall be included, where required by the requirements under Deviations Request Requirements and Procedures or request is submitted by the VVB.*	Yes ☐ No ☐ *If answer is yes, fill the information in section 6.4 below.*

6.4 | VVB's assessment

The below information is to be completed by VVB, if applicable.

VVB's assessment of deviation request	Please confirm the nature of deviation.	
VVB's assessment of impact of deviation request		
VVB recommendation		
VVB details	VVB name:	
	Auditor name(s):	
	Email (s):	

6.5 | Documents:

6.5.1 | List of documents provided (*note that once a decision has been made by Gold Standard, this deviation form will be made public on the Gold Standard website. Kindly refrain from including any confidential information in the form.*)
