Relevant monitoring period, if applicable	Start date	01/11/2023	
	End date	30/06/2024	
Summarise the changes	This request relates to the delay submission of annual report for monitoring period: • 01/11/2023 to 30/06/2024 (inclusive of both dates) As part of this update: • The annual reports have now been finalized and uploaded report to the Gold Standard registry with a report date of 31/07/2026. • These submissions represent the actual completion date of technical finalization and formal submission of the annual report. • Going forward, the project developer will submit the annual reports ensure timely submission in accordance with Gold Standard requirements. No changes are proposed to the project design, baseline, monitoring methodology, emission reduction calculations, or project boundary. The change is procedural in nature only and relates solely to the timing of report submission. The environmental integrity, data quality, and continuous operation of the project remain fully unaffected.		
Reason for deviation	The PD has submitted the Annual Reports and sought a deviation request, which has been uploaded for GS review and approval. It is also confirmed that the project activity has remained continuously operational and compliant with Gold Standard requirements throughout the entire monitoring period.		
Proposed resolution	PD now prepared and submitted the Annual Reports for the respective monitoring period and upload on the Gold Standard Assurance Platform (GS-AP). A deviation request has also been submitted to seek approval for the delayed submission of these reports. The PD confirms that the project activity has remained continuously operational and in compliance with Gold Standard requirements during		

	the entire period, and the delayed submission does not impact the project's monitoring data, emission reductions, or overall project performance.
Is there any potential temporary or permanent impact of deviation on other aspects of the project?	Select the relevant area: ☐ Project design ☐ Local stakeholder consultation ☐ Safeguarding principles ☐ SDG assessment ☐ Regulatory compliance ☐ Additionality ☐ Applicability of methodology ☐ Annual emission reduction volume *(if yes, fill the table below)*

Annual emission reduction/removal before applying deviation	Annual emission reduction/ removal after applying deviation

Summary of the impact	The delayed submission of Annual Reports for the relevant period does not have any impact on the project implementation, monitoring data, emission reduction calculations, or the overall performance of the project activity. The project has remained continuously operational and compliant with Gold Standard requirements throughout the monitoring period. The current deviation request only addresses the administrative requirement of submitting vintage-wise Annual Reports separately. Therefore, this delay has no impact on the credibility, accuracy, or integrity of the reported emission reductions.
