### 4.2 | Decision

#### 4.2.1 | Decision Summary

The project developer's request for conducting a remote site visit cannot be approved as per paragraph 2.1.2 of Annex B of Principles and Requirements version 2.1. But in view of the conflict zone, Project developer shall appoint an Objective Observer for the on-site audit. This decision is exclusively for the monitoring period, from 01/01/2023 to 31/12/2023 and for VPA with GSID – GS2456, GS3516, GS3517, GS3518, GS3519, GS3520, GS3521, GS3522, GS3523, GS3524. The relationship between and among the Project Developer, the Objective Observer and Gold Standard shall be established in a Memorandum of Understanding that must be signed by all parties.

#### 4.2.2 | Directions for the project developer/CME, if applicable

The project developer is not required to request another deviation for appointment of an Objective Observer (OO). However, the project developer shall ensure that the OO has been selected for the on-site audit as required by para 2.1.2 of the Annex B of Principles and Requirements version 2.1 and has conducted the audit under the guidance of a GS-approved VVB. The Project Developer will be responsible for contracting and covering the costs of the Objective Observer.

The project developer shall document the deviation request, its implications, and GS' decision in the appropriate section of the GS Monitoring Report (for the relevant MP).

#### 4.2.3 | Directions for the Validation and Verification Body (VVB), if applicable

The VVB shall provide a checklist to the selected Objective Observer before the site visit, to assist the Objective Observer in assessing the relevant aspects related to the Project's Verification. The checklist must be limited to issues that the VVB thinks would be necessary to check on-site to form the Verification opinion.

The verifying VVB shall ensure the following:

- The Objective observer (OO) is selected to conduct the assessment as per the checklist provided.
- The site visit conducted by the OO during the verification shall confirm the status of the project operation and the mitigation plans in place to tackle the negative impacts of the project.
- Assess and demonstrate how the selected OO has prior experience working in conflict zones/areas that pose a high risk to life and/or health. The VVB shall also demonstrate OO's involvement in other activities within the project's geographical area.

The Verifying VVB shall, through appropriate means at its disposal, evaluate the Project's compliance with the above-mentioned conditions and provides its opinion in the Verification Report

#### 4.2.4 | Directions for the Gold Standard, if applicable

Assurance team shall review both the PD's response and the VVB's assessment/opinion of the same and take appropriate steps.
