DEVIAION REQUEST FORM

PUBLICATION DATE 14.1.2021
Version 4.0

A. To be completed by Gold Standard

1 | Decision

1.1 | Date – 17/06/2022

1.2 | Decision
The deviation has been APPROVED considering that continuous activities have been performed since start of the project.

The PD shall note that this is not a permanent approval. The PD must make sure to submit the Annual Reports latest by end of the following year as stipulated in PRINCIPLES & REQUIREMENTS - Version 1.2 § 5.1.39 to 5.1.44. in future.

1.3 | Is this decision applicable to other project activities under similar circumstances?
No
B. To be completed by the Project Developer/Coordinating and Managing Entity and/or VVB requesting deviation (Submit deviation request form in Microsoft Word format)

Principles and requirement, version 1.2, published in October 2019, paragraph 5.1.39 indicates “Transparent, annual update reports need to be provided for Projects that have achieved the Project Design Certification stage or have successfully transitioned to Gold Standard for the Global Goals. An annual report shall be submitted for each monitoring year by end of next calendar year for which verification is not completed. If a verification is in progress but not completed, then an Annual Report is still required by the end of calendar year.” Further Failure to provide Annual Reports as required shall result in the de-certification of the Project.

3 | Deviation detail

3.1 | Description of the deviation:

The project has been design certified under Gold Standard in 16/11/2020. The Current Project Activity is also CDM registered with CDM ID: 10603. This is the first verification is undergoing under GS with the Monitoring period 16/11/2018 to 31/12/2020. According to the requirement, PRINCIPLES & REQUIREMENTS, 5.1.39, “Transparent, annual update reports need to be provided for Projects that have achieved the Project Design Certification stage or have successfully transitioned to Gold

Standard for the Global Goals. An annual report shall be submitted for each monitoring year by end of next calendar year for which verification is not completed. If a verification is in progress but not completed, then an Annual Report is still required by the end of calendar year” & 5.1.40 “Failure to provide Annual Reports as required shall result in the de-certification of the Project”. Note that PP has undergoing the GS Verification for the monitoring period for Start date 16/11/2018 End date 31/12/2020
In light of the challenges described below, we request a deviation to continue verification process of the project without de- certification of the Project.

3.1.1 | Deviation detail (to be completed by Project developer):

The deviation does not attract any kind of risk upon environmental integrity and all the SDG contributions are achieved in-line with the registered PDD.

3.1.2 | VVB opinion (to be completed by VVB, if applicable):

NA

3.2 | Assessment of the deviation:

3.2.1 | Deviation assessment (to be completed by Project developer):

The subject project activity owned by Parampujya Solar Energy Private Limited. The project attained Design Certified Status on 16/11/2020. The crediting period of the project activity was 24/09/2020 to 23/09/2025 during certification process and accordingly periodic verification carried out. PP has started VVB appointment process for verification. Since the project owner was serious towards verification. The Final verification report, monitoring report, ER sheet was uploaded on 29/09/2021 and was publicly available since then.

The delay in submission to annual report due to the unique difficulties the project has had to faced:

lack of information: The team who were dealing Carbon projects lack the information as it is the first verification under the GS. As the team has not competent enough to understand terminologies used in the Carbon mechanisms. The lack of information for GS4GG certification is the main reason. Also the verification was expected to complete in 2021 however as the team is new
payment process to sustainCert took lot of time and the performance review was shifted to 2022.

3.2.2 | VVB opinion (to be completed by VVB, if applicable):

Not applicable

3.3 | Impact of the deviation:

3.3.1 | Impact assessment (to be completed by Project developer):

The deviation of this project lies in the deviation of the submission of annual report. During the delay period, the project owner has continued to monitor all parameters which were validated and approved during the verification. The above deviation will not cause any impact upon the data quality or attract any potential risk on GS related to any issuance or any other material impact affecting the quality of the project and thus no potential risk is attributed to GS Project activity in particular. The deviation requested adheres to the Principles and Requirements set forth by GS4GG and complies with:

Environmental Integrity- The GSCER’s generated from the project activity are not overestimated because of deviation and conservativeness are ensured.

- Contribution to Sustainable Development Goals- SDG contributions that the project is designed to achieve are in line with GS4GG requirements and the above deviation does not have any potential impact upon the certified SDG’s claimed during the current crediting period.

- Safeguarding Principles and requirements- The deviation does not create any impact upon the safeguarding principles and requirements set forth by GS4GG

- Compliance with Host Country Regulations- The project does not create any conflict with Host Country regulations and all the host country regulations are followed.

3.3.2 | VVB opinion (to be completed by VVB, if applicable):

NA

3.4 | Documents:

Annual report

if required the project owner can submit any kind of supporting sought by GS.
