3.0 | Description of the deviation:

**Guidance* Use the space below to describe the deviation and substantiate the reason for requesting deviation from applicable rules/requirements. Please include all relevant information in support of the request. You are requested to follow the principles for requesting deviations, given in the [Deviation Approval Procedure/ Design Change Requirements](#).*

3.0.1 | Deviation detail (to be completed by Project developer):

The verification site visit of the project activity was planned on 20/02/2023. Due to devastating earthquakes in Turkey on 06/02/2023, unfortunately, many people passed away and still many of them are trying to survive. The project activity is located in Adana which is badly affected city by the earthquake. Specialized civilian and military teams are still going to the region to rescue people who have been affected by the disaster and take aid for the needs. The airports (Adana and Gaziantep) close to these sites are all “gone” and their remains are solely used for support-flights for quite a while.

We thought to postpone the verifications however we don't know how much time it would take for the region to be made up and really "good". People are also worried about epidemic illness as tetanus and cholera.

We do not want to prevent any of effort of helping people for victims and also want to protect safety of VVB and consultant teams, we'd like to request the site visit to be executed "remotely".

3.0.2 | VVB opinion (to be completed by VVB, if applicable):

**Guidance* If required by SustainCERT or Gold Standard for this particular deviation, please add here the VVB's opinion.*

The request for remote site visit of the VVB was sent to GS on 07/02/2023.

3.1 | Assessment of the deviation:

**Guidance* Use the space below to describe how the deviation complies with the requirements, and, where applicable, the accuracy, completeness and conservativeness is ensured. Please include all relevant information in support of the request.*

3.1.1 | Deviation assessment (to be completed by Project developer):

The project's latest site visit dates are as below:

- o 01/06/2021 – remote site visit due to COVID deviation
- o 19/09/2019 – physical site visit

The Project activity's CP renewal was completed on 15/11/2022. And the site visit has been arranged accordingly. Unfortunately, the disaster has happened.

3.1.2 | VVB opinion (to be completed by VVB, if applicable):

**Guidance* If required by SustainCERT or Gold Standard for this particular deviation, please add here the VVB's opinion.*

.....

3.2 | Impact of the deviation:

**Guidance* Use the space below to describe the impact of the deviation on project design, safeguarding principles assessment, SDG assessment, emissions reductions, monitoring frequency, data quality, potential risk or any other relevant aspect of the project. Please substantiate the impact assessment with relevant and verifiable data/information.*
