A. To be completed by Gold Standard

1 | Decision

1.1 | Date – 20/09/2023

1.2 | Decision

The applied deviation request is APPROVED. The PD may submit the request for renewal by 30th September 2023. However, project developer shall ensure full compliance with all the other applicable requirements of the Principles & Requirements. The decision is subject to fulfilment of the following conditions:

i. The PD shall ensure that a continuity in the Project’s monitoring activities is maintained, and PD is able to justify that no monitoring gaps exist (especially for SDG parameters) within the Monitoring Period(s). However, if gap(s) exist, the project shall justify that conservative approach(es) have been applied in line with section 3 of the Deviation Approval Requirements and Procedures (version 1.2) and overarching GS principles (as applicable).
ii. The PD shall document the deviation request, its implications, and GS’ decision in the appropriate section of the GS PDD.

The validating VVB shall, through appropriate means at its disposal, evaluate the Project’s compliance with the above-mentioned condition and provides its opinion in the Validation Report.

SustainCert shall review both the PD’s response and the VVB’s assessment/opinion of the same and take appropriate steps.

1.3 | Is this decision applicable to other project activities under similar circumstances?

No

3 | Deviation detail

3.1 | Description of the deviation:

*Guidance* Use the space below to describe the deviation and substantiate the reason for requesting deviation from applicable rules/requirements. Please include all relevant information in support of the request. You are requested to follow the principles for requesting deviations, given in the Deviation Approval Procedure/Design Change Requirements.

3.1.1 | Deviation detail (to be completed by Project developer):

MicroEnergy Credit (CME) is submitting the deviation request for extension in renewal of crediting period for 4 VPAs (GS 11482/83/84/85) which are part of designed certified PoA (GS 11450), due to unforeseen weather conditions (heavy rainfall and red alerts) across various states of India.

As per section 5.1.45 and 5.1.46 of Principles and Requirements, the design certification renewal process shall begin no later than the last date of current certification cycle. Delay in the completion of re-validation beyond the last date of current certification cycle shall result in a reduction of any issuance of Certified Products and/or Impact Statements available during following certification cycle. Under PoA (GS 11450), there are 4 VPAs (GS 11482/83/84/85) that completed first crediting period on 24th August 2023. CME requests extension in submission for renewal request till 30th September 2023 for these 4 VPAs. CME is unable to submit the renewal request because VVB site visit have been delayed due to extreme rainfall in northern, eastern, and southern parts of the country where site visits were planned in the month of June/July. CME would like to provide the following news articles as evidence -

https://www.businesstoday.in/latest/trends/story/imd-forecasts-heavy-to-very-heavy-rainfall-in-these-8-states-till-july-11-388797-2023-07-07

In applying this deviation, MEC has adhered to the following core GS principles.

Environmental Integrity: This deviation does not result in any overestimation of GS-VERs
Contribution to Sustainable Development (SDG) Goals: The Sustainable Development Assessment has been carried out at VPA equivalent level.

Safeguarding principles and Requirements: Safeguarding Principles Assessment has been carried out at VPA equivalent level.

Compliance with host country regulations: The scope of this deviation work extensively studied the host country regulation part of the PoA geographic boundary and found to be compliant.

3.1.2 | VVB opinion (to be completed by VVB, if applicable):

*Guidance* If required by SustainCERT or Gold Standard for this particular deviation, please add here the VVB’s opinion.

NA

3.2 | Assessment of the deviation:

*Guidance* Use the space below to describe how the deviation complies with the requirements, and, where applicable, the accuracy, completeness and conservativeness is ensured. Please include all relevant information in support of the request.

3.2.1 | Deviation assessment (to be completed by Project developer):

The below list of VPAs with crediting period summary which shows 4 VPAs have expired under GS4GG first crediting period.

<table>
<thead>
<tr>
<th>GS ID</th>
<th>CDM CP Start Date</th>
<th>CP Start Date under GS4GG</th>
<th>CP End Date under GS4GG</th>
</tr>
</thead>

</tr>
</tbody>
</table>

CME requests extension in submission for renewal for the above 4 VPAs because the site visits have been delayed due to extreme weather conditions in various parts of India. The site visit has been planned in last of week of August 2023. **CME will ensure to follow the total crediting period under GS4GG (15 years) however, would**
request Gold Standard to allow CME to retain the CP-2 start date as end of the last day of the CP-1 end date.

3.2.2 | VVB opinion (to be completed by VVB, if applicable):

*Guidance* If required by SustainCERT or Gold Standard for this particular deviation, please add here the VVB’s opinion.

NA

3.3 | Impact of the deviation:

*Guidance* Use the space below to describe the impact of the deviation on project design, safeguarding principles assessment, SDG assessment, emissions reductions, monitoring frequency, data quality, potential risk or any other relevant aspect of the project. Please substantiate the impact assessment with relevant and verifiable data/information.

3.3.1 | Impact assessment (to be completed by Project developer):

There is no impact on the project design, safeguarding principles, SDG assessment, data quality, monitoring frequency, emission reduction calculation, potential risk or any other aspects of the project due to this deviation. There is no negative impact or overestimation of emission reductions form the project. The PoA will abide by the “Deviation Approval Requirements and Procedures” and other GS requirements.

3.3.2 | VVB opinion (to be completed by VVB, if applicable):

*Guidance* If required by SustainCERT or Gold Standard for this particular deviation, please add here the VVB’s opinion.

NA
3.4 | Documents:

*Guidance* List of documents provided (note that once a decision has been made by Gold Standard, this deviation form along with supporting documents will be made public on the Gold Standard website. If any of the supporting documents are confidential, please indicate here to ensure they are omitted.)
