

DEVIATION REQUEST FORM

PUBLICATION DATE **11.04.2021**

Version **5.0**

A. To be completed by Gold Standard

1 | Decision

1.1 | Date – dd/mm/yyyy

02/08/2024

1.2 | Decision

The Deviation Request is Not Approved.

The project activity has claimed issuance under CDM until 31/08/2021. The transition from GS CER to GS VER has not been done, and hence in line with Scenario 4b of the RULE CLARIFICATION DESIGN CERTIFICATION RENEWAL REQUIREMENTS: CDM PROJECTS TRANSITIONING TO GS4GG, PD cannot claim the credits for the remaining of the fixed CP.

1.3 | Is this decision applicable to other project activities under similar circumstances?

No

B. To be completed by the Project Developer/Coordinating and Managing Entity and/or VVB requesting deviation (Submit deviation request form in Microsoft Word format)

2| Background information

Deviation Reference Number	DEV_753	
Date of decision	02/08/2024	
Precedent (YES/NO)	No	
Precedent details	NA	
Date of submission	14/06/2024	
Project/PoA/VPA	<input type="checkbox"/> Project	ID - GS7590
	<input type="checkbox"/> PoA	ID - GSXXXX
	<input type="checkbox"/> VPA	ID - GSXXXX
Project/PoA/VPA title	ROHIT SURFACTANTS PVT.LTD- 10.5 MW Wind Project, Tamil Nadu	
Date of listing	07/01/2020	
GS Standard version applicable	GS4GG	
Date of transition to GS4GG (if applicable)	N.A.	
Date of transition to Gold Standard from another standard (e.g. CDM) (if applicable)	N.A.	
Date of design certification/inclusion (if applicable)	21/06/2022	
Location of project/PoA/VPA	India	
Scale of the project/PoA/VPA	<input type="checkbox"/> Microscale <input checked="" type="checkbox"/> Small scale <input type="checkbox"/> Large scale	
Gold Standard Impact Registry link of the project/PoA/VPA	https://registry.goldstandard.org/projects/details/2205	
Status of the project/PoA/VPA	<input type="checkbox"/> New <input type="checkbox"/> Listed <input type="checkbox"/> Certified design <input checked="" type="checkbox"/> Certified project	
Title/subject of deviation	Deviation Requested to claim GS Impact Certifications for the remaining monitoring period for the Crediting Period in GSVER stream without any losses of claimable crediting period.	
Specify applicable rule/requirements/methodology, with exact paragraph reference and version number	Scenario 4b of the RULE CLARIFICATION DESIGN CERTIFICATION RENEWAL REQUIREMENTS: CDM PROJECTS TRANSITIONING TO GS4GG dated 02/06/2023 (https://globalgoals.goldstandard.org/standards/RC-2023-Design-certification-renewal-requirements-CDM-projects-transitioning-to-GS4GG.pdf)	

Specify the monitoring period for which the request is valid (if applicable)	Start date: _____ End date: _____
Submitted by	Contact person name: Bhaskar Dutta
	Email ID: bhaskar.dutta@enkingint.org
	Organisation: EKI Energy Services Limited
	Project participant: Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
Validation and Verification body (VVB opinion shall be included, where required by the applicable rules/requirements or request is submitted by the VVB).	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> If yes; VVB name: VVB Staff name(s):
Any previous deviations approved for the same project activity/PoA/VPA(s)?	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

3 | Deviation detail

3.1 | Description of the deviation:

3.1.1 | Deviation detail (to be completed by Project developer):

According to the Scenario 4b of the RULE CLARIFICATION DESIGN CERTIFICATION RENEWAL REQUIREMENTS: CDM PROJECTS TRANSITIONING TO GS4GG (<https://globalgoals.goldstandard.org/standards/RC-2023-Design-certification-renewal-requirements-CDM-projects-transitioning-to-GS4GG.pdf>) dated 02/06/2023, if a Project is in the last 5 year of CDM crediting period at the time of first submission to GS4GG then project may complete transition and may claim GSVERs till the end of year 10 with version of methodology registered with CDM.

The corresponding CDM Project ID for the Project Activity is 5335 (<https://cdm.unfccc.int/Projects/DB/SGS-UKL1318581210.51/view>) and the crediting period under CDM is 30/11/2012 to 29/11/2022. Hence the Project Developer is requesting to allow the claim of subsequent verifications in GS-VER scheme without the loss of claimable monitoring period provided the Project Developer does the transition from GS-CER to GS-VER scheme on priority.

Kind request to approve this deviation of exemption of loss of claimable period and conduct the GS verifications of retroactive period without loss of claimable period as this will allow the project developer to gain a positive intention as the SDG Impact contributions play a vital role in project survival.

3.1.2 | VVB opinion (to be completed by VVB, if applicable):

3.2 | Assessment of the deviation:

3.2.1 | Deviation assessment (to be completed by Project developer):

According to the Scenario 4b of the RULE CLARIFICATION DESIGN CERTIFICATION RENEWAL REQUIREMENTS: CDM PROJECTS TRANSITIONING TO GS4GG (<https://globalgoals.goldstandard.org/standards/RC-2023-Design-certification-renewal-requirements-CDM-projects-transitioning-to-GS4GG.pdf>) dated 02/06/2023, if a Project is in the last 5 year of CDM crediting period at the time of first submission to GS4GG then project may complete transition and may claim GSVERs till the end of year 10 with version of methodology registered with CDM.

The corresponding CDM Project ID for the Project Activity is 5335 (<https://cdm.unfccc.int/Projects/DB/SGS-UKL1318581210.51/view>) and the crediting period under CDM is 30/11/2012 to 29/11/2022. Hence the project Developer is requesting to allowing the claim of subsequent verifications in GS-VER scheme without the loss of claimable monitoring period provided the Project Developer does the transition from GS-CER to GS-VER scheme on priority.

Also, the Project developer regularly did Annual Reporting for the Project activity on regular basis, the last Annual Report was uploaded on sustain-cert on 26/12/2023. Hence the project developer was always serious about GS-Impact Certifications.

Since the revenue from the GS Impact certifications are very essential for the survival of the project activity and rejection of the deviation will lead to a huge financial loss to the project developer for the monitoring period from 01/01/2021 to 29/11/2022 which will tentatively lead to a loss of 42,662 GS-VERs. This is a very huge loss and it may lead to very serious implications in the current business scenario and sustaining the project activity.

This will allow the project developer to gain a positive intention as the SDG Impact contributions play a vital role in project survival.

Thus, GS is requested to to approve this deviation for exemption of loss of claimable period and conduct the GS verifications of retroactive period without loss of claimable period under the GS-VER scheme.

3.2.2 | VVB opinion (to be completed by VVB, if applicable):

3.3 | Impact of the deviation:

3.3.1 | Impact assessment (to be completed by Project developer):

The above deviation will not cause any impact upon the data quality or attract any potential risk on GS related to any issuance or any other material impact affecting the quality of the project and thus no any potential risk is attributed to GS Project activity in particular.

The deviation requested adheres to the Principles and Requirements set forth by GS4GG and complies with:

- Environmental Integrity- The GSVER's generated from the project activity are not Over-estimated as a result of deviation and conservativeness are ensured.

- Contribution to Sustainable Development Goals- SDG contributions that the project is designed to achieve are in line with GS4GG requirements and the above deviation does not have any potential impact upon the certified SDG's claimed during the current monitoring period.

Safeguarding Principles and requirements- The deviation does not create any

impact upon the safeguarding principles and requirements set forth by GS4GG
 - Compliance with Host Country Regulations- The project does not create any conflict with Host Country regulations and all the host country regulations are followed.

Thus, Kind request to allow project developer to claim the credits for complete monitoring period without loss of any credits.

3.3.2 | VVB opinion (to be completed by VVB, if applicable):

Not Applicable.

3.4 | Documents:

Not Applicable, if required, the project developer can submit any kind of supporting sought by GS.
