

DEVIATION REQUEST FORM

PUBLICATION DATE **11.04.2021**

Version **5.0**

A. To be completed by Gold Standard

1 | Decision

1.1 | Date – dd/mm/yyyy

31/07/224

1.2 | Decision

The Deviation Request is Approved.

PD shall ensure to submit the Annual reports within the specified period in line with 5.1.39 of GS4GG P&R.

The project developer shall note that the decision is based on the information provided in the deviation request form and only against the applicable standard requirement quoted in the form below by the developer. The project developer shall comply with all other applicable standard requirements until unless specifically mentioned in the deviation decision.

1.3 | Is this decision applicable to other project activities under similar circumstances?

No

B. To be completed by the Project Developer/Coordinating and Managing Entity and/or VVB requesting deviation (Submit deviation request form in Microsoft Word format)

2 | Background information

Deviation Reference Number	DEV_774	
Date of decision	31/07/2024	
Precedent (YES/NO)	No	
Precedent details	NA	
Date of submission	01/07/2024	
Project/PoA/VPA	<input type="checkbox"/> Project	ID – GS5575
	<input type="checkbox"/> PoA	ID – GSXXXX
	<input type="checkbox"/> VPA	ID – GSXXXX
Project/PoA/VPA title	20 MW Solar Project in Sanwreej, Jodhpur, Rajasthan	
Date of listing		
GS Standard version applicable	Principle & Requirements Version 1.2	
Date of transition to GS4GG (if applicable)	24/04/2024	
Date of transition to Gold Standard from another standard (e.g. CDM) (if applicable)	NA	
Date of design certification/inclusion (if applicable)	11/07/2017	
Location of project/PoA/VPA	India

Title/subject of deviation	<p>Deviation from GS4GG principles and requirement, section 5.1.39 “Transparent, annual update reports need to be provided for Projects that have achieved the Project Design Certification stage or have successfully transitioned to Gold Standard for the Global Goals. An annual report shall be submitted for each monitoring year by end of next calendar year for which verification is not completed. If a verification is in progress but not completed, then an Annual Report is still required by the end of calendar year”.</p>	

<p>Specify applicable rule/requirements/methodology, with exact paragraph reference and version number</p>	<p>Principles and requirement, version 1.2, published in October 2019, paragraph 5.1.39 indicates "Transparent, annual update reports need to be provided for Projects that have achieved the Project Design Certification stage or have successfully transitioned to Gold Standard for the Global Goals. An annual report shall be submitted for each monitoring year by end of next calendar year for which verification is not completed. If a verification is in progress but not completed, then an Annual Report is still required by the end of calendar year" Further Failure to provide Annual Reports as required shall result in the de- certification of the Project.</p>
<p>Specify the monitoring period for which the request is valid (if applicable)</p>	<p>Start date 01/03/2020 End date 31/12/2022</p>
<p>Submitted by</p>	<p>Contact person name: Mr. Sumeet Singhvi Email ID: sumeet@infisolutions.org Organisation: Infinite Environmental Solutions LLP Project participant: Yes <input type="checkbox"/> No <input checked="" type="checkbox"/></p>
<p>Validation and Verification body (VVB opinion shall be included, where required by the applicable rules/requirements or request is submitted by the VVB).</p>	<p>Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> If yes; VVB name: VVB Staff name(s):</p>
<p>Any previous deviations approved for the same project activity/PoA/VPA(s)?</p>	<p>Yes <input type="checkbox"/> No <input checked="" type="checkbox"/></p>

3 | Deviation detail

3.1 | Description of the deviation:

This is the third verification which is undergoing under GS with the Monitoring period 01/03/2020 to 31/12/2022. According to the requirement, PRINCIPLES & REQUIREMENTS, 5.1.39, "Transparent, annual update reports need to be provided for Projects that have achieved the Project Design Certification stage or have successfully transitioned to Gold Standard for the Global Goals. An annual report shall be submitted for each monitoring year by end of next calendar year for which verification is not

completed. If a verification is in progress but not completed, then an Annual Report is still required by the end of calendar year" & 5.1.40 "Failure to provide Annual Reports as required shall result in the de-certification of the Project". Note that PP has undergone the GS Verification for the monitoring period 01/03/2020 to 31/12/2022. In light of the challenges described below, we request a deviation to continue verification process of the project without de-certification of the Project.

3.1.1 | Deviation detail (to be completed by Project developer):

The deviation does not attract any kind of risk upon environmental integrity and all the SDG contributions are achieved in-line with the registered PDD.

3.1.2 | VVB opinion (to be completed by VVB, if applicable):

NA

3.2 | Assessment of the deviation:

3.2.1 | Deviation assessment (to be completed by Project developer):

The subject project activity is owned by Janardan Wind Energy Pvt. Ltd. (JWEPL). The project attained Design Certified Status on 11/07/2017, and PA has ongoing verification for the monitoring period 01/03/2020 to 31/12/2022. Further, PP has also initiated VVB appointment process for verification of PA. Since the project owner was serious towards verification therefore the required procedure has initiated.

The delay in submission to annual report due to the unique difficulties the project had to faced:

Organizational restructure of team: The management has been changed the organizational restructure in year 2020, further management and team shifting took more than a year. The new team's lack of information regarding the guidelines and reshuffling resulted in delayed submission of annual report and submitted a combined report for the year 2020 and 2021.

Unforeseen circumstances: At the same time COVID19 pandemic also impacted the day to day working of project owner, and hence as stated above, due to both of the reasons the annual report was missed. The project proponent from the very beginning has tried its level best to ensure all guidelines are being met.

3.2.2 | VVB opinion (to be completed by VVB, if applicable):

NA

3.3 | Impact of the deviation:

3.3.1 | Impact assessment (to be completed by Project developer):

The project proponent has not claimed credits after the organizational restructure and change of team. The project needs carbon credits to continue its operation. In the absence of carbon credits, the project will not be able to sustain itself.

The deviation of this project lies in the deviation of the submission of annual report. During the delay period, the project owner has continued to monitor all parameters which were validated and approved during the verification. The above deviation will not cause any impact upon the data quality or attract any potential risk on GS related to any issuance or any other material impact affecting the quality of the project and thus no potential risk is attributed to GS Project activity in particular. The deviation requested adheres to the Principles and Requirements set forth by GS4GG and complies with:

Environmental Integrity- The GSVER's generated from the project activity are not overestimated because of deviation and conservativeness are ensured.

Contribution to Sustainable Development Goals- SDG contributions that the project is designed to achieve are in line with GS4GG requirements and the above deviation does not have any potential impact upon the certified SDG's claimed during the current crediting period.

Safeguarding Principles and requirements- The deviation does not create any impact upon the safeguarding principles and requirements set forth by GS4GG.

Compliance with Host Country Regulations- The project does not create any conflict with Host Country regulations and all the host country regulations are followed.

The project proponent has not claimed credits after the organizational restructure and change of team. The project needs carbon credits to continue its operation. In the absence of carbon credits, the project will not be able to sustain itself. In the future, project proponent will ensure that the annual reports are submitted on time and submitted a combined report for the year 2020 and 2021 and is publicly available. For calendar year 2022, the project proponent has already submitted dated on before 06/12/2022 that is before December 2023. Similarly, for calendar year 2023 also, the project proponent has already submitted dated on 20/12/2023 before December 2024

and ensures that for the upcoming calendar years the annual reports will be submitted by the end of the next calendar year.

3.3.2 | VVB opinion (to be completed by VVB, if applicable):

NA
