# **SUMMARY**

Following the publication of the <u>Procedure for Development, Revision, and Certification</u> of <u>Methodologies and Methodological Tools v.2.0</u>, the Gold Standard has conducted a review of status of approved methodologies. Those listed in this document have been identified for retirement or revision. As noted in the rule update the project developer or VVB shall not submit a project/PoA for preliminary review, nor shall a project apply a methodology listed in the table for design certification or crediting period renewal.

## 1| METHODOLOGY RETIREMENT

- 1.1.1 | The methodologies listed in <u>Table 1</u> have been identified for retirement due to low or no adoption over 5+ consecutive years.
- 1.1.2 | The date of publication for V1.0 of this rule update (22/02/2024) shall be the date of retirement, with a grace period of 60 days.
- 1.1.3 | Following the retirement of a methodology:
  - a. a project developer or CME shall not submit a request for preliminary review to list a new activity, and
  - b. a VVB shall not submit a design certification request or renewal of the crediting period for a Project or PoA.
- 1.1.4 | If a project has already been submitted for design certification or renewal of crediting the period using a retired methodology, the project may complete the certification. However, the developer shall inform the Secretariat as soon as possible by sending a notification at to <a href="mailto:methodology@goldstandard.org">methodolog@goldstandard.org</a>. The project shall then apply a new or revised methodology at the next renewal of the crediting period.
- 1.1.5 | If a project developer or CME wishes to use a methodology that has been listed for retirement and the project has not been submitted for design certification or renewal, then the developer can propose a new or revised concept with reference to the retired methodology document, in line with the <u>Procedure for Development, Revision, and Certification of Methodologies and Methodological Tools</u>.

METHODOLOGY TITLE	VERSION NUMBER	DATE OF PUBLICATION	
Methodology For Biodiesel from Waste Oil/Fat from	V1.0	06.08.2009	
Biogenic Origin for Use as Fuel			
Programme, Baseline and Monitoring Methodology for	V1.0	14.06.2010	
The Introduction of An Alternative Ignition Technique as			
Measure to Improve the Energy Efficiency of Domestic			
<u>Coal Fires</u>			
Installation Of Flow Improvement Equipment on Ships	V1.0	23.06.2015	
Ecologically Sound Fuel Switch to Biomass with Reduced	V1.0	14.06.2017	
Energy Requirement			
Thermal Energy from Plant Oil for The User of Cooking	V1.0	14.06.2017	
<u>Stoves</u>			
Indicative Program, Baseline and Monitoring	V2.0	14.06.2017	
Methodology for the Large-Scale Supply & Distribution			
of Efficient Light Bulbs, Shower Heads and Other Water			
Saving Devices to Households			
Gold Standard Methodology for Thermal Performance	V1.0	14.06.2017	
Improvements in Low-Income Dwelling Structure			

#### 1.1.6 | Table 1 – List of retired methodologies

Fuel Switch from Fossil Fuels to Biomass Residues in	V1.0	14.06.2017
Boilers for Heat Generation		
GHG Emission Reductions from Manure Management	V1.0	14.12.2013
Systems and Municipal Solid Waste		
Requirements To Apply CDM Methodology "AMS – III	V1.0	22.10.2018
AU" For Gold Standard Certification		

## 2| METHODOLOGIES UNDER REVISION

- 2.1.1 | The methodologies listed below in <u>Table 2</u> have been identified for revision (i.e., updates or integration within a newer methodology document) and have thus been put on hold until further notice.
- 2.1.2 | If a methodology is listed for revision:
  - a. the PD or CME shall not submit a request for preliminary review to list a new activity, and
  - b. the VVB may submit a design certification or renewal of the crediting period for a project, VPA or PoA if it has already achieved the listed status.
- 2.1.3 | If a project developer or CME wishes to use a methodology that has been listed for revision, then the developer shall inform the Secretariat by sending a notification at to <u>methodology@goldstandard.org</u>.

#### Table 2 - List of methodology under revision

METHODOLOGY TITLE	VERSION NUMBER	DATE OF PUBLICATION
Suppressed Demand Methodology Micro-Scale Electrification and Energization	V1.0	14.05.2013
Suppressed Demand Small-Scale Methodology for Low GHG Food Preservation	V1.0	14.05.2013
Suppressed Demand SmallScale Methodology for Energy Use for The Processing of Agricultural Products	V1.0	14.06.2017
Reducing Methane Emissions from Enteric Fermentation In Dairy Cows Through Application of Feed Supplements	V0.9.1	28.03.2019
Gold Standard Agriculture Smallholder Dairy Methodology	V1.0	22.06.2017

# 3| DOCUMENT REVISION HISTORY

Version number	Release date	Description
1.1	31.05.2024	Increased clarity on the date of methodology retirement (1.1.2), the use of retired methodologies (1.1.4 and 1.1.5) and methodologies that are under revision (2.1.1. – 2.1.3).
1.0	22.02.2024	First version
