1| INTRODUCTION

The Gold Standard Foundation (“GSF”, “Gold Standard”, “we”, “us”, or “our”) creates Standards to quantify and certify public and private sector Impacts toward climate security and achievement of the UN-led Sustainable Development Goals, to facilitate the issuance of Products, including certified Units, and certified Impact Statements.

We would like to work with you, as a GS-VVB (applicant and/or approved GS-VVB or VVB), to facilitate the implementation of the Standard(s) created by GSF, and to allow you to conduct Validation and/or Verification/Certification Audits of Gold Standard Project Activities and to issue Validation and/or Verification/Certification opinions and reports according to Good Industry Practice (the “GS-VVB Services”). Validation and/or Verification/Certification opinions and reports are necessary and required steps to achieve Gold Standard Certification. These Validation and/or Verification/Certification opinions and reports are based on audits and assessments against the Standards, of Projects seeking Certification. These opinions and reports in turn form the basis of Gold Standard Certification and issuance of Products for these Projects. The following binding terms and conditions govern the relationship between you, as a GS-VVB, and Gold Standard with respect to the GS-VVB Services (the “VVB Terms and Conditions”).

The Gold Standard [Validation/Verification Body Requirements](#), as may be amended from time to time (the “VVB Requirements”) provide the principles, rules, and requirements applicable to all VVBs that seek to provide GS-VVB Services, i.e. to conduct Validation and/or Verification/Certification Audits for certifying Gold Standard Project Activities, under the GS4GG and/or Earlier Versions of the Standard.

Please read on to find out more about your rights, obligations, roles, and responsibilities as a GS-VVB in the Gold Standard Certification Process. Your signature to these VVB Terms and Conditions is required, for your Approval as GS-VVB by Gold Standard, in order to be appointed by a Project Developer as a GS-VVB. The scope of your Approval will be for specific Project types/certification pathways in the Gold Standard Certification Process, and these VVB Terms and Conditions will govern, amongst other things, your responsibilities in the Gold Standard Certification Process including your impartiality, the use of Data and your respect of confidentiality.
